Board Certified/Board Eligible Pediatricians

Dear Parent,

Congratulations on your new baby!

While your baby's health is our main concern, we want to make sure that all of the requirements of your insurance company are met for your baby's insurance coverage.

Our billing company is HuTech Resources, LLC. They are staffed with professionals who will file your claims to your insurance company on your behalf. However, you will need to call your insurance company within the first few weeks of life to add the baby to your insurance plan.

This is important because you will be responsible for all charges that are not covered by insurance (incurred while in the hospital and the pediatrician's office). If after thirty (30) days from the date of service, the insurance company does not pay the claim, then the insured becomes responsible for the entire bill. It's always best to follow up with your insurance company before thirty (30) days after the birth to assure that the paperwork has been processed.

HuTech Resources is available to you for any inquiries you may have regarding your account. You can call them Monday-Friday from 8:30 am to 4:30 pm at 630-285-1530.

We look forward to being a part of your child's care.

Best regards,

Ann Keating, BS, RN, BSN
